

Concept grid

Build one concept from six angles so that definition, application and evaluation stay connected.

Topic	Name	Date
-------	------	------

Definition

State it precisely; note any conditions.

Example(s)

Use a case that genuinely tests the concept.

Diagram / argument map

Show premises, inference and conclusion.

Common errors

Record the tempting confusion and correct it.

Exam tip

How will this earn clarity, precision or evaluation?

Linked ideas

Connect another topic, philosopher or objection.
